

I have very much appreciated not having my phone ringing at all odd hours of the day and night.

If I am in need of a service or product, I will contact the company or vendor of my choice, at my convenience.

Please leave the no call list as it is, or strengthen it even more.

I believe we all have a right to privacy in our own homes.

When these companies start paying our phone bills, perhaps they would then get a say in who may call whom and when.
